

NOTICE **Town of Battleford** **Utility Bills**

Battleford residents:

The Town is in the process of converting to new utility software. Staff are working on ensuring accounts have been converted correctly (are accurate) prior to processing the August - October billing.

Water bills may not be sent out until close to the end of November, 2016. Residents are encouraged to make payments on their account even though they haven't received their bill. The minimum bill for a three-month period is \$231.00. Payments can be made with cash, cheque, debit or through your financial institution. Customers can also continue to pay online if you make payments in this fashion.

Customers that have signed up for our WIPPS program will continue to have payments applied to your account. Your bill will show the balance including any payments made to your utility account prior to the bills being processed.

The Town appreciates your patience while we work through this conversion. If you have any questions don't hesitate to contact our office.
