

2025-March-11

PUBLIC NOTICE

Town of Battleford has approved several key infrastructure improvement projects for the upcoming construction season. These projects are part of our ongoing commitment to enhance the safety, functionality, and overall quality of our community.

The following projects have been approved and are scheduled for implementation:

1. Sidewalk Removal and Replacement:

- **Location:** 22nd Street West, 1st Avenue to 2nd Avenue, 100 Block (North Side Only)
- **Purpose:** This project will improve pedestrian safety and accessibility by replacing aging and deteriorated sidewalks.
- **Benefits:** Enhanced walkability, improved safety for pedestrians, and a more aesthetically pleasing streetscape.

2. Storm Sewer Replacement:

- **Location:** 25th Street West, between 3rd Avenue and Highway 4.
- **Purpose:** This project will replace aging and inadequate storm sewer infrastructure to improve drainage and prevent flooding during heavy rainfall.
- **Benefits:** Improved stormwater management, reduced risk of flooding, and enhanced infrastructure reliability.

3. Asphalt Reconstruction – Curbs and Gutters:

- **Location:** 3rd Avenue West, 35th Street West to 36th Street West.
- **Purpose:** This project will reconstruct the asphalt roadway, including new curbs and gutters, to improve road surface quality, drainage, and overall street integrity.
- **Benefits:** Smoother and safer driving surface, improved drainage, enhanced street aesthetics, and extended roadway lifespan.

What to Expect During Construction:

- Throughout the project timelines, residents can expect construction crews and equipment in the designated areas.
- Temporary disruptions to traffic flow, parking, and pedestrian access may occur.
- We will strive to minimize inconvenience and complete these projects as efficiently as possible.
- Noise and dust are to be expected during construction.
- Please adhere to any posted signage and follow instructions from construction crews.

Project Timelines:

- *Specific project timelines will be communicated to residents closer to the start of construction.*
- Weather conditions may affect project schedules.

We appreciate your patience and cooperation as we work to improve our community's infrastructure.
